INSTALLATION INSTRUCTION LED V-TAC SMART LIGHT SERIES

INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC SMART LED Lighting. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any other query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 2 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

SAFETY WARNING

- 1) Lamps are limited to indoor use and are not advisable for use in humid environment
- 2) Lamp is to be used in well ventilated areas and normal installation.
- 3) Caution: This lamp is NOT to be used in a totally enclosed fixture which is not good for heat emission. Please do not install the lamp in enclosed space as it will shield the wifi signal due to which resulting in the poor functioning of the product.
- 4) Lamps and lanterns cannot be installed on the surface of ordinary combustible materials. Increase in temperature is normal for lamps.
- 5) Do not exert external force or throw on the lamp.
- 6) Lamps should be stored in cool/dry place. Always make sure the environment is clean before installing the lamp.
- 7) Do not discard the lamps with regular trash. Lamps are made with electronic components and should be properly disposed at designated locations with unified treatment like traditional electronic equipment.

NOTE:

1. This device requires Wi-Fi Frequency 2.4GHz
2. Indoor use only
3. Operating frequency (maximum transmitted power) 2400MHz-2483.5MHz (20dBm)

This marking indicates that this product should not be disposed of with other household wastes.

MULTI-LANGUAGE MANUAL QR CODE

Please scan the QR code to access the manual in multiple languages.

INSTALLATION

- Step 1: Disconnect the power supply and install the lamp.
- Step 2: Turn the power ON to test the lamp.
- Step 3: Enable Wi-Fi and bluetooth on your phone device.
- Step 4: Scan the given QR code, or download "V-TAC Smart Light" from the App Store (IOS) or the Google Play Store (Android).

Step 5: Open the V-TAC Smart Light app and tap on register for creating a new account.

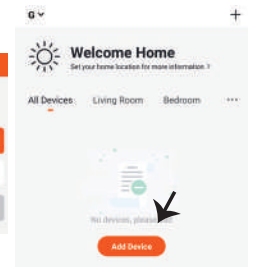

Step 7: Enter the verification code which will be sent to your mobile number/email id, then assign a new password to your account and tap on "Confirm".

Step 6: A) Mobile Number: Select the country, then enter your mobile number. Once done, tap 'Next'. B) E-Mail: Enter your email id and tap on 'Next'.

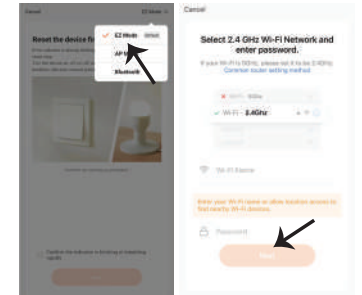

Step 8: Tap on 'Add Device' or the + sign. Make sure the lamp is switched on.

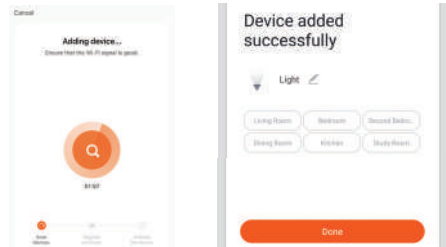

Step 10: V-TAC Smart Light Bulb offers two types of pairing modes:
1) EZ Mode - Light flashes rapidly
2) AP mode - Slow Flash or long brightness

How to enable/reset the smart bulb into pairing mode -
Step 1: Switch ON the bulb, if the light is flashing rapidly the device is in EZ mode. Please proceed to pairing the smart device with the App. If not please follow Step 2.
Step 2: Switch the bulb OFF-ON repeatedly 3 times with short intervals of less than 2 seconds. Light flashes rapidly indicating the device has entered pairing mode. Please proceed to pairing the smart device with the App.
Note: Each time you switch the device OFF-ON repeatedly 3 times with short intervals of less than 2 seconds the pairing mode of the device alternatively switches between EZ mode and AP mode.

Step 11: Once you have successfully completed step 10, you will be redirected to below page, where the App searches, registers and initializes the device(lamp) (ref image below).

Step 12: Once your device is successfully added, rename the device to your preference.

Step 13: After successfully pairing the lamp with the app, you can start controlling multiple features of the lamp through your mobile—on/off switch, changing the colour temperature, timing & schedules, dimming options, and more.

ALEXA SETTINGS

Step 1: Install the Amazon Alexa app via the App Store (IOS) or the Play Store (Android) and register. If you already have an existing account with Amazon Alexa, please proceed to logging in.
